HOW TO CREATE WEB/ONLINE CREDENTIALS

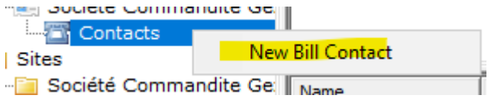

1. On the right side, Under Bill to, click on contacts.

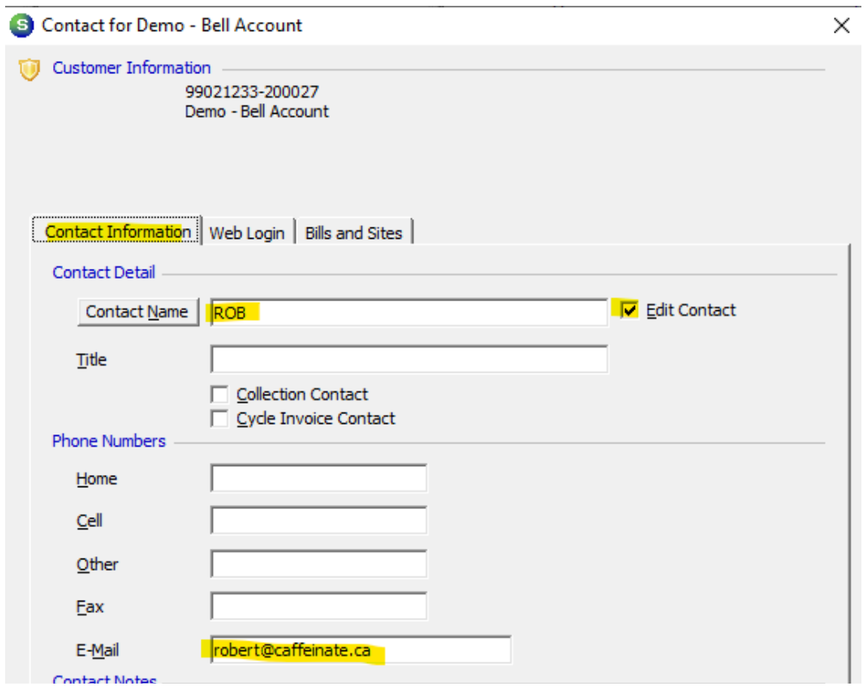

2. Double click on the first contact on the list

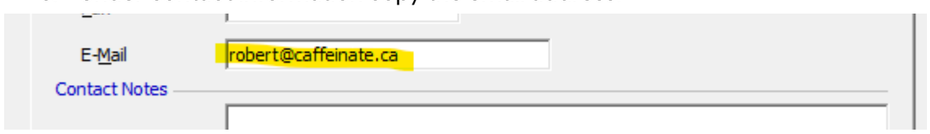

- Incase that the contacts are empty, right click on new bill contact and fill out Contact Name and Email address

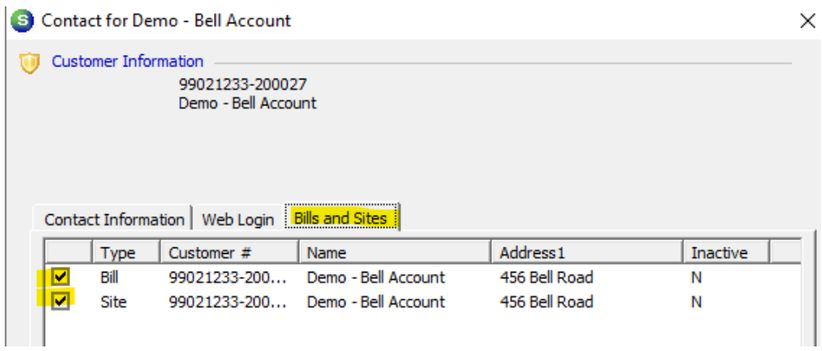

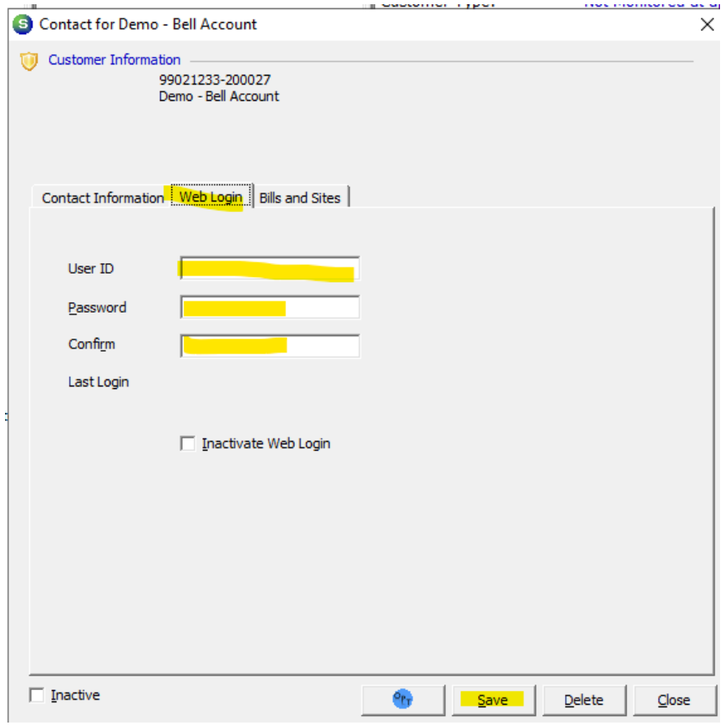

3. Under contact information copy the email address.

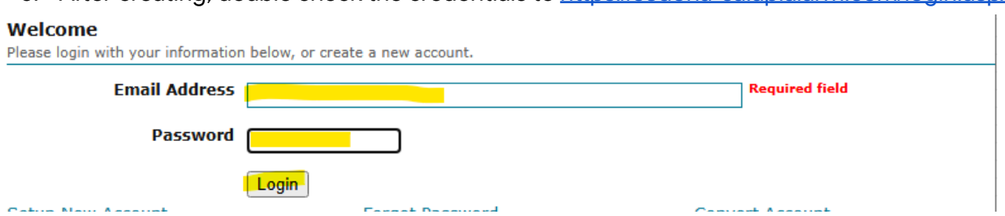

4. Go to bill and sites and ensure that all boxes are ticked

5. Go to Web Log In, paste the email address on the User ID, then create a temporary password. Re enter temporary password on the third line then hit save and close

6. After creating, double check the credentials to https://sedona-ca.apialarm.com/login.aspx

7. If confirmed working, provide Credentials to customers to set up and access their account.

***Note**: In the special case that log in is not working/ shows invalid,you can refer them to Customer Care to reset Log In info over the phone.*
